W.C.T.U. CONVENTION RES.

WASHINGTON, Dec. 7.—[By the New Christian Union Convention.] In a long speech to the effect that all able-bodied British subjects are liable to be conscripted for service in the Rand Rifles.

HOLLAND AND PORTUGAL
HAVE A DIFFERENCE.

MINISTERS OF THE TWO COUNTRIES LEAVE THEIR POSTS.

Withdrawal of Equator to Dutch Consul at Lorenzo Marques and King Charles's Toast Cause Tension-Spanish Paper's Version.

BY THE NEW ASSOCIATED PRESS—A.M.

LISBON, Dec. 7.—[By Atlantic Cable.] The Minister of The Netherlands to Portugal and the Portuguese Minister to The Hague, have left their respective posts. It is believed that a difference has arisen on the subject of the exequatour to the Dutch Consul at Lorenzo Marques, which the Portuguese government has withdrawn.

Tension between Holland and Portugal appears to have been emphasized,

perhaps not intentionally, by the peculiar warmth of King Charles's toast to Queen Victoria at the banquet given yesterday at the royal palace to Vice-Admiral Sir Harry Goldsworthy Rawson and the officers of the British fleet now in the River Tejo, and by the telegram by which the Dutch Ambassador addressed to Victoria, thanked Her Majesty for sending the fleet and friendship thus demonstrated.

"It beg to record," telegraphed the King, "the satisfaction at the frank and loyal alliance uniting England and Portugal."

In the course of his speech, when he toasted Queen Victoria, King Charles has often spared the efforts and glories of Portugal. Our mutual friendship and close alliance are strengthened by his toast, and the exchange of presents of fresh fruit, to meet in Sacramento the third Tuesday in January, composed of from one to five tons each, the fruit is produced and sent by the fruit-growers' association of San Francisco the second Tuesday in January, composed of one dozen tons each, from each of the fruit and nut associations of the State.

JAMAICA TREATY OPPOSED.

By the adoption of the following resolution, the fruit-growers' convention adopted a resolution which it is hoped will result in the formation of an association emblem in its membership all the fruit interests of California.

THE PHILIPPINES. REBELS KEPT ON THE RUN.

More Activity at Both Ends of Luzon.

Funston Put Concealed Foes to Flight.

Numerous Small Victories for Americans—Deserter Fagin Reported Wounded.

BY THE NEW ASSOCIATED PRESS-A.M.I.

MANILA, Dec. 7.—[By Manila Call] More activity is shown in the operations in northern and southern Luzon. The reports from the former district come in more quickly, and telegraphic interruptions are fewer.

Gen. Funston, with Troop A of the Fourth Cavalry, and a score of scouts, last Thursday surprised the insurgents posted on the opposite bank of the Nueces River. The Americans charged across the stream and the enemy retreated, firing from cover. They left four dead on the field. A native, who was captured, reported that Jaeger, a deserter from the Twenty-ninth Infantry, who had been active with the rebels with a party of two cavalrymen, had been wounded.

Lieut. Morrow, with fifty men of the Forty-seventh regiment, attacked and occupied Bacoor. While returning, these troops encountered Col. Victoria, occupying an entrenched position, with thirty rifles and 300 bolos. Lieut. Morrow's force charged and drove the enemy from their position, it is believed, with heavy loss. Preceding the fight, the expedition had captured Maj. Flores and several of his followers.

An engagement is reported to have occurred near San Roque, in which, according to natives, fifty rebels were killed. Several minor encounters and captures are also reported. The Americans can have been very slight.

The island of Baguio has recently been the scene of more activity on the part of the insurgents than formerly, and a small force has been sent to reinforce the battalions stationed there.

The members of the Philippine Commission and several military officers will go to Dagupan town on a quest of their own management. Their families have already been invited. They will return Sunday.

LONG TRIP FOR A TUG.

WOMPATUCK GOES TO MANILA.

BY THE NEW ASSOCIATED PRESS-A.M.I.

NEW YORK, Dec. 7.—Naval officers are looking forward to the voyage to Manila that has been ordered by the Navy Department for the little tug Wompatuck, which has been doing service in the Brooklyn navy yard for some time. The order came as a surprise to the officers in the yard. It completes the long trip it will be the first time on record that an 11-ton tug has been able to do so.

As the general peace or specific reasons for sending the Wompatuck to Manila, naval officers in the yard confess complete ignorance. It was generally believed that the tug would leave the yard this week, but inquiry revealed the fact that she is not expected to leave until January 1. Capt. Commander F. H. Sherman is nominally in charge, but when the tug sails she will also have on board Lieut. F. B. Brainerd.

The Wompatuck will go first to Norfolk, then to Bermuda. The Wompatuck will then follow an itinerary which will take her to Madeira, then to Gibraltar and other Mediterranean ports, to the Suez Canal and Red Sea, arriving in Indian Ocean, arriving at Bombay, Ceylon and Sumatra.

CAN'T FIND A JUNTA.

BY THE NEW ASSOCIATED PRESS-A.M.I.

LONDON, Dec. 7.—In response to Secretary Hay's representations, through United States Ambassador Choate, the Foreign Office has replied that the authorities at Hong Kong have been unable to discover a Philipino junta there.

TRANSPORT'S EXTRA TRIP.

BY THE NEW ASSOCIATED PRESS-A.M.I.

WASHINGTON, Dec. 7.—Quartermaster-General Ludington has arranged to have the transport Thomas, now at San Francisco, make an extra trip to the Philippines for the purpose of carrying a large amount of military stores to the troops. She will start for Manila on the 17th inst. The transport Logan will leave for Manila on her regular trip on the 18th inst.

ELECTRICITY FROM STEAM PIPES.

BY THE NEW ASSOCIATED PRESS-A.M.I.

NEW YORK, Dec. 7.—A report in the English technical journals on the development of electricity by the escape of steam under pressure. By one correspondent it is stated that the new establishment which he was connected with made a steam pipe nine feet long, part of a long range of 9-inch pipes, supplying one of the underground engines. This pipe was split from end to end, a vertical seam of seven feet forming the whole length of the split. The pressure being only 35 pounds per square inch. The range passed from the shaft along a return air course to the engine. Two men set to examine it, sawing on the side of the pipe, the early section of Congress, the new coil may be put in circulation before a great while, possibly before the winter is over.

The Cabinet also discussed the House Bill revising the War Revenue Act which proposes a cut of about \$6,000,000 in the revenue of the administration to purchase silver bullion. The present market price and coin its distinctive dollars having a gold value of about 40 cents each. These dollars are to be coined in the mint, however, than the present standard dollars.

The scheme has not yet been worked out in all of its details, but as there is at present no movement coinage mint of dollars. It was however, in the early session of Congress, the new coin may be put in circulation before a great while, possibly before the winter is over.

The Senate agreed to take a vote next Thursday on the amendment offered by the Committee on Foreign Relations to the War Revenue Bill.

Mr. Gullinger presented a telegram addressed to the president of the Senate from N. F. Thomas, secretary of the Economic Industrial Commission, in relation to the proposed coinage bill, to the effect that the convention had passed a resolution favoring the early passage by Congress of the Anti-Saloon League.

On account of the contentious character of the bill, it was voted to postpone consideration of the same until the next session.

XXII YEAR.

RELIANCE
NEW
CLOTHS

We have just received some new styles of Reliance Suits. They are direct from our New York wholesale tailor and reflect the latest styles for men. They are cut with broad military shoulders, and come in single and double breasted sack or three-button cutaways. Among the cloths represented you will find black, blue and gray clay worsteds, serges, cheviot, vicuna, cassimere, Scotch goods, etc. A good variety of staples and novelties. The cut, workmanship and fit of these suits are the best that can be had for anything like the same price, and besides all this we guarantee every suit to be all wool and to give satisfaction; and, in addition, we keep them pressed and in perfect condition free of charge. Always the same price 111

Overcoats at \$15.00.

These overcoats are works of art from the tailor's standpoint. They have all the style and fit that you could expect for twice the money. The cloths used are good, and are equal to the cloths usually put into \$20.00 overcoats. They are just the latest things out; quite a variety to pick from.

Men's Hats at \$2.50.

A net saving of \$1.00. Exclusive hat stores get \$3.50 and once in a while \$4.00 for these hats. We are showing more styles and colors in stiff hats, fedoras, Alpines and the new Greco than all the rest of the hat stores combined. Every new shade and shape. Best hats on earth for \$2.50.

Special Sales Saturday.

Saturday we have some special bargains for men. This you will find a variety of shirts, underwear, hose and wear. You will find the latter especially desirable; big collection of styles and shades and silks; qualities which sell mostly at 50c. Flaring four-in-hand, swell puffs, imperials, etc., as nobby as you could wish for. They are all 25c

[THE OIL INDUSTRY.]
**UNION JACK

**Cheap Stock Assessed a

**Making Improvements
in Western Field.**

**Development Work Going on at
the Usual Lively Rate
All Around.**

**Several important improvements are
to be made in the western field soon.**

The Sterling Oil Company is arranging
to install an up-to-date pumping plant
on its property in the Lahart
tract. As has been announced, the
company has two good wells now pro-
ducing and two others that will be ready
to produce within the next days.

The Rhodes Oil Company, operating
in the extreme western part of the
northwestern extension, is making a
plucky fight to find oil. Although sev-
eral wells have been drilled on the
property, during the past few months,
not one has proved up in spite of the
fact that oil is known to be in that
field. Operators are not trying to force
a well to bring in oil owing to the gas
pressure progress is very slow.

Speculators who have considered Union
Jack a good thing and have been
loading up with that stock at prices
ranging from one cent and a half to
two cents, learned with dismay yes-
terday that good things come high.
Formal notices have been sent to stock-
holders that an assessment of one cent
a share has been levied, probably for
the purpose of the company's own de-
velopment of the property.

The company's property is in the
home field. As the company is capital-
ized at \$1,000,000, and as 600,000 shares
have been floated, an assessment of
one cent a share is considered by many
as not great as to offer any barrier
to the development of the northern fields.

WHITTIER COMPANY'S NEW WELL.

WHITTLER.—Dec. 7.—(Regular Cor-
respondence.) The Home Oil Com-
pany is experiencing some difficulty
in putting the pump on No. 10, its
latest completed well. On No. 9 the
hard formation makes the drilling
slow. No. 11 rig is up but drilling
will not commence until one of the
other wells is completed.

The Warner Oil Company is building
a 10,000-barrel tank at the Evergreen
station.

The Producers' Oil Company, which
is composed mostly of Pasadena people,
expects to begin work the first of
the year on the forty acres leased of
the Whittier Oil and Producers' Com-
pany on West 21st Street.

The Pante Oil Company has abandoned
its first location near Brea Cañon, and is grading a road to its
new lease in the East Whittier area.

One of the most classed districts
in the long island of oil is the
territory a few miles north of the town
of San Fernando. This is the newest
of the many promising fields near the
city, and is said to be one of the
richest areas in the state.

Yesterday the Suanga Oil Company
let a contract for a well to be com-
menced at once on its property two
miles and a half north of San Fernan-
do, 100 feet from the valley line.

This corporation is backed by local
men of capital who will provide plenty
of the necessary to thoroughly prove
the district.

The Suanga Company's land, an-
other company has secured holdings on
the Porter ranch, and will have a
rig at work the first of the week.

ON 'CHANGE.

MORE EXPENSIVE STOCK SOLD.

Trading in United Petroleum was
again the feature of the call on the
floor of the Los Angeles Exchange
yesterday. The stock is the most ex-
pensive handled on the local "change,"
and brings \$6 a share. Fifty shares
were sold yesterday at that price.

Business was low yesterday, with few
sales. Southern Consolidated again
took another decline and found a mar-
ket at 13¢ cents.

Fullerton Oil was stronger. Opening
at 16¢ cents, went to 16¢ cents,
where 100 shares sold.

No unlisted properties were handled,
the sales of listed stock being as fol-
lows:

PETROLEUM.

Local petroleum of between 18 and 19
deg. gravity is held at \$1.05 a barrel,
Los Angeles. The average price
in the field is \$1.07.

TANKS AND PIPE LINES.

STANDARD SUPPLY THEM.

There is no longer any doubt as to
the contention of the Standard Oil Company
doing business in the McKittrick
field. Recent reports from there are
that material for three tanks is now on
the ground, and sites will be selected
this week, and work begun the first of
next week. It also is reported that the
company is busy erecting its tanks on
the river bed and has enough 16-inch pipe
on the river bed to lay seventeen miles of its
line. The company will lay pipes into
all parts of the field. Among the first
will be one leading to "22" Cañon, to
accommodate the many operators on
5, 31, 32, 33 and 34.

FIELD DEVELOPMENT.

In the Devil's Den country there are
still several active operators, but if
they have been rewarded for their trou-
ble, there is no report of it. The dis-
trict is well supplied with rich surface
industries, and accounts are the
center of the coming field.

The recent strike of the Pacific Crude
Oil Company between McKittrick and
the Kern River Company's wells is
producing good oil. The well is said
to be producing about one hundred
twenty barrels of oil a day. This well
was landed in the top of the oil sand
and for that reason is indeed a fine
producer.

This is the season of the year when
assumption work is required, says the
Bakersfield Californian, "and in the
Sunset much is already started. In
order to erect twenty-five derricks
and another company is getting ready
to run a water-pipe line which will
cost some \$1800, fulfilling the require-
ments of the law on eighteen quarter
sections."

As was expected, the recent strike

of the Sunset Diamond on section
11, 23, will prove up all right.

The Superior Oil Company is one
of the heavy producers of the north-
ern field. It is said that the company
is shipping three cars of oil a day,
and the prospect is that its produc-
tion will be increased before many
days.

The Superior Oil Company has an
offspring. The Superior Development
Oil Company, just organized, is a
branch of the former company.

The Acadia Oil Company is drilling
on its property, the west half of the
section 23, 28, 28, 28, for which
well is not down far enough to show
what it will be, but the neighborhood
is good.

The Thirty-three Oil Company has
a short-distance line. It is six feet
long and with it a car can be loaded
in eleven minutes.

Assessments have been completed
by the Linda Vista Oil Company
to begin drilling next Monday.

The company recently purchased a tract
of land in section 28, 28, 28, for which
well will be 1000 feet deep.

The company is showing oil in
the well of the Century Oil Com-
pany, operating on section 24, 28, 27.

The company has a well drilled to
a depth of 770 feet and 90% oil.

Just above the Kern River bed the
Eclipse Oil Company is prepared to
drill a well on section 11, 20, 21.

The company has erected a rig and is anxious
to begin work at once on the
indications in that part of the field
which are encouraging.

Although the drill in the well of
the Edgar Oil Company is in over-
head, it has not yet reached the
first sand, according to the Echo, was
with the exception of a few layers of
the sand, the oil is thin and greenish
in color. This furnishes very good evi-
dence that the oil belt is not pinch-
ing out on the north, but, on the con-
trary, extending away in that direction.
Through the same is found a green
gas which is considered to be
of great value to the gas producer.

The Whittier Consolidated Company
is again drilling on its well just north
of the city. Considerable trouble has
been experienced from water sand
but this has been cased off.

Duke and Duchess and Automobile
Coming West in Style After the New
Year.

BY THE NEW ASSOCIATED PRESS.—ALM

NEW YORK, Dec. 7.—The Duke and
Duchess of Manchester, accompanied
by Miss Martha Evans, Mrs. Zimmerman
and Melville Ellis, left the Erie
depot last night in their private car,
which was attached to No. 12, Chicago
express train.

Private car No. 7, belonging to the
Cincinnati, Hamilton and Dayton Rail-
road, was all in readiness; the drawing-
room was filled with flowers, and a
comfortable sofa was placed on the platform.

On the platform the Duke and
Duchess, accompanied by their
maids of honor, were seated in a
large carriage, which was drawn by
four horses.

The Duke and Duchess were dressed
in white, and the Duchess in a
white gown.

The Duke and Duchess were

THE PUBLIC SERVICE—IN THE OFFICES AND COURTS.

SUMMARY OF THE DAY.

Friends of President Silver urge him to accept a position as Police Commissioner. The Council, which has the naming of two Republican members of the board, will probably tender him the appointment.

War is declared by Councilman Pearce on the Street Superintendent's office. Another difficulty is added to the long list of McGuire's troubles.

The annual report of the Health Officer, giving the vital statistics for the year, is ready for filing with the Council.

Paved streets in the center of the city are to be swept by hand and the particles of dust complained of by merchants will be removed tomorrow.

The Board of Public Works recommends that the Council grant the franchising application of the Ice and Cold Storage Company to distribute trifid in pipes.

A. Harrington, Harry Lyon and Tom Brennan were examined before Justice James yesterday on charge of criminal conspiracy. Their cause will be argued on Tuesday. It involves the officer's course.

The Pinkham medical assault case will probably conclude today.

Mrs. Sarah Daly Savage has cited Frank Savage into court to compel him to show cause why he doesn't pay her rent.

Six-Shooter Bill, who lives in a shanty in the river bottom, was arrested yesterday for vagrancy. His wife and a guest were also arrested.

A number of tough vagrants were brought before the Police Court yesterday.

Mattie Lawson, a young girl, was sentenced yesterday for hitting a woman in a drunken row.

LAW IN THE CITY HALL:
SILVER SUGGESTED
FOR POLICE BOARD.

FRIENDS URGE HIS ACCEPTANCE
OF THE POSITION.

A Number of Changes Shortly to Be Made in the Positions of City Hall Deputies—Courteous Act of Auditor-elect Unger.

Much interest is felt among the friends of the officials and deputies at the City Hall regarding the positions that they will fill after the first of the year. Some of the faces that have been familiar in the offices and about the halls and corridors of the city building will be the positions which have grazed for the last two years will be filled by strangers to the work which they are expected to do. Some few will secure deputyships in other offices and in those departments where the incumbent was returned a majority of the deputies will remain.

The old friends of Hon. Herman Silver will be pleased to learn that a strong effort is on foot to induce him to accept a position on the Police Commission. There seems little doubt that the honor will be given to Mr. Silver in case he can be persuaded to accept a position under the administration of Mayor-elect Snyder. The places which he could be assigned hold some and it is thought by many that it would be a very graceful thing to extend to the man who has done so much for the city, in his position as Comptroller, a place on the Police Commission.

When questioned about the matter yesterday, Mr. Silver did not deny that the men had made an advance on some of his friends, but said he had nothing whatever to say concerning it. "I have never given the proposition any consideration," was the way he answered the reporter's query.

Elijah E. Patterson, who has before the beginning of his administration done one of the most graceful acts to be recorded in local politics, the placing of his office to be used by Louis F. Schwab, now book-keeper in the Street Superintendent's office, and E. E. Boatwick, both of whom were his opponents for the nomination at the annual meeting of the City Convention. In the case of Mr. Boatwick, the position was entirely unsought, and the recipient was as much surprised as anyone at his good fortune in securing the matter yesterday. Mr. Unger said:

"I believe I have chosen two good men who will assist me ably in giving the city a clean sweep, and administration in the office for the next two years. In appointing Mr. Boatwick I have had to deny a host of personal friends, but I regarded it as essential for my own protection and the best interests of the public to have a thoroughly capable man in the position for which I have selected him. He is an expert accountant and that could not be said of the men who, perhaps, had a good political chance."

Hugh J. McGuire, who was elected to the office of Street Superintendent, has fled precipitately from the attentions of the hosts of patriots who are more than willing to give him a home in his office. The reports that are current are half true. Mr. McGuire is in fact to insure his election, and about the time he could find some favor from the street department. Ignorant teamsters who congregate about the old Spanish plaza were all promised work on the streets, and in fact were working there, there were innumerable engagements.

For the ante-election promise, politicians there comes a day of judgment, and although Mr. McGuire has gone to San Diego to bethink his burning temples in the cool embrace of Neptune, he can not long hope to elude the smoldering fire that has burned and rankled in the hearts of several aldermen for months past. The flames burst their way through Mr. Pierce's office brick yesterday and he delivered a Phillip to his colleagues on the Board of Public Works.

The cross-examination also pointed out that there was no credit no discredit to the man he had been offered on the strength of the grounds that day, no prizes offered and no admission charged.

And the grounds—about ten acres in size—were exactly like the surrounding country, slight rolling and studded, save the enclosing fence.

Justice James heard the evidence elicited and continued the matter until Tuesday for argument. The facts in the case are not disputed by the defendants, who are at liberty on their own recognition.

INCORPORATIONS.

WAITERS HAVE ORGANIZED.

The Southern California Waiters' Association incorporated yesterday with no capital stock. The purpose of the organization is to promote the general welfare of its members, to provide a place for a meeting of its members for social purposes, and to assist them in obtaining the principal place of business.

Waiters, Inc., W. A. Nolan, Bert La Rue, William G. Johnson, Al Prince, Ernest F. Lakeman, Joseph E. McFadden and Charles F. Hildebrand, all of Los Angeles.

The Kingsley Tract Water Company (with principal office in Los Angeles) has come into existence.

The San Dimas water company, incorporated to put in the works, but the official never paid any attention to the orders. When personally supplicated he told the aldermen to go to the demotion of the men.

There was a vote of politics on the part of the men who, it is believed, were to be taken care of on the clean, white pages of coming City Hall history.

Mr. C. E. Patterson, Mayor-elect M. P. Snyder is about to take a trip for his health in an endeavor to elude the many applicants for positions of emoluments.

PIPING GOLD.

FRIGIDITY FAVORED.

At the session of the Board of Public Works yesterday morning the application of the Ice and Cold Storage Company for a franchise to pipe refrigerating materials to the wholesale district of the city was acted upon favorably. The board will recommend to the Council that the franchise be granted, the work to be done under the supervision of the proper authorities.

The company asks the Council for permission to lay pipes and conduits for distributing the refrigerating substance in that part of the city bounded by Third Street, Los Angeles Street and the Los Angeles River.

The term of the franchise is twenty-five years. It is probable that the fran-

chise will be granted at the meeting of the Council on Monday.

The board will also recommend to the Council that the City Engineers be instructed to prepare plans and specifications for the construction of weirs at Reservoir No. 5 and at Hollenbeck Park lake, and to present them at an early date, together with the estimate of cost, the need of the work was emphasized during the heavy rains of November.

The board decided yesterday to recommend that the City Engineers be instructed to prepare plans and specifications for the construction of a storm drain along Lake Shore avenue.

The petition asking the improvement of Irolo street from Main to Harrison was referred to the Board composed granite is to be used in the improvement.

The petition asking that the Transportation Commission be authorized to make alterations in Vermont and Twenty-fourth street was favorably acted upon.

STREET-SWEEPING.

FINE DUST MUST AVAUNT.

A good deal of complaint has been expressed by citizens recently concerning the fine dust that has collected on the streets since the rain.

The large machine sweepers do not clean it from the streets and the "white angels" are too few in number.

Street Superintendent Drain has taken cognizance of the unsatisfactory condition of the downtown pavement and the gang of workmen will be sent to work tomorrow to sweep every inch of Spring, Main and Broadway from Temple to Seventh street, and if possible Spring and Main will be cleaned as much as Ninth street.

The defendants are charged with conspiracy on the theory that they got together and deliberately schemed to commit the misdemeanor of cruelty to animals.

They have a fenced-in ten-acre tract south of the city, just outside of the municipal limits, where coursing could be carried on very profitably.

Mr. McGuire said they proposed to enjoy a bit of the sport. If the officers interfered, they would test the mettle.

In fact, the Sheriff's office was notified of the event in time to have two deputies on the grounds.

Mr. McGuire said he did not deprive the police of a chance to apprehend the waiters.

Waiting for the course to begin, everybody had a real social time. The deputies chatted with Harrington and others, while the Humane Officer sort of sat on the side and observed.

After the streets were been thorough-swept, the fine particles of dirt that now make life so comfortable for shoppers and merchants, it will not be necessary to sprinkle them so thoroughly as at present.

VITAL STATISTICS.

ANNUAL HEALTH REPORT.

The annual report of the Health Office has been presented to the Board of Health by Clerk V. A. Brown. The report covers the period from December 1, 1899, to December 1, 1900. It contains many interesting information regarding births, deaths, and the amount of sickness in the different sections of the city.

The total number of deaths reported for the year is 172, an annual death rate of 1.45. Deaths reported from the various wards are as follows:

First Ward, 116; Second Ward, 174; Third Ward, 149; Fourth Ward, 231; Fifth Ward, 129; Sixth Ward, 180; Seventh Ward, 171; Eighth Ward, 160; Ninth Ward, 91. Total at the various wards is 1,120, the number to time on the efficiency with which he has conducted his department.

After the streets were been thoroughly-swept, the fine particles of dirt that now make life so comfortable for shoppers and merchants, it will not be necessary to sprinkle them so thoroughly as at present.

THE GAME OF HOLD-UP.

People outside of mercantile pursuits have little idea of the extent to which merchants are held up by the circulators of alleged charitable subscriptions and the promoters of speculative philanthropy. All the money and valuable stolen by highwaymen from citizens of this community during the past year are but a few bits in comparison with the amount levied on business houses by these people and collected at the muzzle of a gun. The gun is loaded not with powder and shot, but with the threat of a boycott. "If you don't subscribe for this or advertise in that or give us \$25 for the other thing, you will lose the trade of our society or organization or clan," they say. The methods of the footpads are similar.

Merchants have to add to their expense account every month a large sum of money which goes, they hardly know where. Somebody gets it, they really don't know who. Day by day it leaks out, a dollar here, ten dollars there, the assessors increasing in number and variety, till the entire profits of the business are menaced. It is no wonder that traders are taking measures for self-protection. A method of helping good causes, which was all very well till it became abused, has been carried to such an extreme and so perverted, that a merchant is justified in throwing up fortifications against these invaders of his preserves and enemies of his peace.

It is bad enough to have private individuals and institutions operating this system of blackmail without permitting paid officials of the city to go into it, and it is well that steps have been taken to prevent the firemen from entering into another conspiracy against the pocketbooks of the very men who pay them their wages. It is enough for merchants to pay city, county and State taxes, without being assessed again by municipal departments. The recent attempt to draw business men into supporting a so-called "souvenir" of the fire department on the pretense that it was a method of raising money for the firemen's relief fund, was a fraud and nothing else. A circular letter over the signature of Chief Strohne said:

"There is now in preparation a souvenir of the Los Angeles fire department, finely illustrated, with copper-plate engravings of every one connected with the department, the different fire houses, apparatus etc. The proceeds from which go to the firemen's relief fund for the benefit of disabled and sick firemen. We desire to make this publication a financial success, and to that end we solicit your hearty cooperation."

The unwar merchant was led to believe that the whole proceeds were to go to needy firemen, and a play was made on his sympathy as well as his desire to retain the favor of the fire department, when the fact is that this was a private and speculative enterprise. For lending their countenance to the undertaking, the firemen were to get one-third of the rake-off only, while the originator of the scheme was to pocket the lion's share. If a merchant paid \$30 to the solicitor for this so-called "souvenir," he gave \$20 of it to the fellow who was working the racket for his own profit. There is reason to believe that Chief Strohne did not realize that he was participating in an arrant deception when he attached his name to such a circular. He was imposed upon. Some foxy fellow made a catapaw of him.

When a masked man pushes a revolver in your face and says "Stand and deliver!" in persuasive tones, it is wise to throw up your hands, as a rule; but the perpetrator of this sort of hold-up is armed with nothing worse than a popgun, and a merchant may safely tell him to fire away. Refuse him! Shut the cash drawer when you see him coming. He can't hurt you. If business men allow themselves to be victimized by such a harmless bluffer through fear of losing trade, they are blamable themselves. It's like being afraid of ghosts. The Times advises merchants and everybody else to stand up for their rights against every form of bulldozing and all sorts of threats. The merchant who offers the best attractions will get the business, whether he subscribes toward the fund to buy a new tail for the minister's dog or not.

A Washington dispatch states that Nicaragua and Costa Rica have announced their willingness "to grant a lease to the United States, for a period of 300 years, of the territory necessary for the construction of the projected Nicaragua Canal." This will be all right. Now let us get to work so as to have some use of the canal before the time set for the expiration of the lease. It has taken us more than fifty years to make up our minds to build the canal. If it is to take proportionately long to do the work, perhaps it would be well to make the lease 1900 years, as a precaution.

The citizens of Phoenix have shown a great deal of enterprise in getting up this entertainment, and the present indications are that it will be successful beyond all precedent. The enterprise and energy which they have displayed are certainly deserving of the highest kind of success. Southern Californians who go to Phoenix for a good time next week will be pretty sure to find what they go after.

Burglars and babbies work hand in hand at midnight. One prowls while the other howls.

It is just as well for Jeffries to con-

side the murder of Von Ketteler, with side pictures of the clothes showing where the bullet went through and with other cuts showing the shoes (or boots) which he had on at the time the crime was committed, the hat he wore, etc., etc.

Then the President might have given us pictures of some of the mules eaten by the legionaries during the long siege, with life-size cuts of the ears of those faithful but unfortunate animals. He might have put in lots of other illustrations which would have been exceedingly interesting, and would certainly have added sensational features to his annual message. But he has done it.

Then, again, there is the Philippine question. That, if anything, furnished the President his real opportunity for sensationalism. It is certainly quite surprising, and even unaccountable, that the President was able to refrain from sensationalism when treating of this subject. The fact that he did so must be taken as one more illustration of the President's marvelous self-control. He could probably have obtained pictures of Aguinaldo (on the run,) showing the length of his paces, the patches on the seat of his breech-clout, and other interesting details. He might have put in, also, one or two pictures of Mr. Bryan (who also ran.) Perhaps, by special arrangement, and at a cost which need not have been prohibitive, the President might have obtained videotape pictures of these two eminent runners in their great running act. But he didn't.

There are numerous other ways in which the President might have added sensational features to his message, which will readily suggest themselves to the intelligent reader. But, strange to say, the President firmly withstood all temptations of this kind. The result, as our Chicago contemporary so well says, is that the President's message "contains no sensational features."

It is perhaps just as well that this is so, although the failure of the President to embrace the many tempting opportunities which were, so to speak, thrust upon him, must forever remain, we fear, an unexplained if not unexplainable mystery.

THE PHOENIX CARNIVAL. Next week will be a gala time for our neighboring city, Phoenix, Ariz. Preparations are practically complete for the great Street Carnival, which promises to excel in picturesque attractiveness all public events of similar character ever witnessed in Arizona. The affair will be formally opened by the President of the United States, in a telegram from Washington, which will be read by Director-General Lewis. The programme which has been arranged for the occasion is an attractive one. The principal feature of the opening day (next Monday,) December 10, will be a great civic, military, cowboy, and Indian parade, at the conclusion of which the Queen of the Carnival—Mrs. B. N. Pratt—will be formally crowned and placed on the throne; the day's amusements to conclude with vaudeville entertainments, etc.

Some special attraction has been arranged for each day of the carnival, so that the entire week promises to be one of unalloyed enjoyment. The social features of the carnival have this year received more than the usual attention. The Queen is to give a reception on Thursday night, which is sure to be a very "swell" affair. On Friday night will be given the official carnival ball. This will easily be the greatest society event of the year in Phoenix, and will no doubt attract the "beauty and the chivalry," not alone of Phoenix, but of all the region roundabout.

The grand stand will seat 1368 persons. The Phoenix Gazette speaks of the seating arrangements and other matters as follows:

"A very large source of revenue to the carnival will be derived from the sale of season tickets for this grand stand. A very original and satisfactory plan has been adopted by the committee of saving coupon books with twelve tickets therein, which can be used by any one, are transferable, good the entire week to pass in and out of the grand stand as people desire. A numbered seat is held for the owner of the book through the entire carnival. Polite and attentive usher will take charge of the reserved-seat sections. The officers of the carnival and their ladies will have seats in these sections, and they will be most desirous of being seated near the Queen.

In the New Brunswick (N. J.) jail is an editor who is getting out two papers weekly, worrying over four of his children, who are down with the whooping cough, receiving visits from his second wife and mother-in-law and smoking cigarettes. He is serving time for contempt. Yet some people think all an editor has to do is to write editorials and get free passes to the circus.

Frank Hummer, formerly private secretary of Webster Davis, is writing a book to be called "What I Know About Webster Davis." The book will undoubtedly prove a "hummer" and may be the means of bringing to light some of Web's movements with old Uncle Kruger—as well as other secrets. Bryan's volume won't cost him anything.

William Bolton, an English scion of Vancouver, dropped dead from fright when confronted by his wife, whom he had deserted for another woman. His wife will now probably be besieged with letters of inquiry, from wives whose husbands are abusing them, as to the successful method used in Wil-liams's case.

And, Mrs. Dyer will remain in Baltimore until spring.

Rev. J. S. Butler, a Chicago minister, played ten years that he might strike gold on a piece of land which had been presented to him, and the other day a million-dollar strike was made. "The Idol's Eye" looked over the footlights of the Los Angeles Theater last evening to an audience of fine proportions.

Frank Daniels's absurdity, without Daniels is well, perhaps not as "Hamlet" without the morbid Dane—but, with all due credit to the cleverness of Mr. Henderson, the general, irresistible, though nonsensical, funniness of Daniels have been so stamped into the character of Abel Conn as to make it an unenviable piece of work for him, who would attempt to figure in the re-cast.

An entertainment which followed the business meeting included a vocal solo by William Schneider, a duet from "Il Trovatore" by Prof. Wilfred Stetson and Mrs. Glasmann, and a recitation by Mrs. Bertha Plant.

BAZAAR CLOSES.

The bazaar of All Saint's Church, for the purpose of raising the debt on the parish house, closed this evening with a reception given by Mrs. E. R. Hull and the ladies of the Guild. The sale of fancy and other articles has been a financial success, it is probable that this method of securing funds will not be resorted to again, much to the gratification of members of the church, who have deplored its necessity.

PASADENA BREVITIES.

Mrs. Alice J. Ferguson, wife of C. H. Ferguson, Jr., of Chicago, and daughter of N. S. and M. A. Critchell, were in a visit to Pasadena, where they had a conference with the Board of Directors, and a delegation to Los Angeles to meet Mr. Macrum.

The jurisdiction of the county does not extend beyond the limits of its resources, and the object is to secure the protection of the country in the protection of the forests and the watershed.

There has been an tour of the forest reserves in Southern California, and especially the San Gabriel range, for the purpose of ascertaining the amount of damage by last summer's fire.

In order to make some plan for the better protection against fire. Another duty performed was the auditing

of the accounts of fire fighters who worked in the mountains during the summer.

COPPER-STONE PLANS.

The executive board of the First Methodist Church, at the invitation of Rev. J. M. Huston, No. 100 South Euclid Avenue, for the purpose of arranging arrangements for the laying of the corner-stone of the new church, which ceremony will take place at the hour of Judge and Mrs. J. G. Rosister on Orange Grove Avenue. It was conducted by Miss Katherine Wilson, assisted by Miss Elizabeth M. Jones.

A musical, complimentary to the First Methodist, was given in the hall of the German Lutheran Church.

Mrs. E. H. Huston, mother of Rev. T. H. Huston, and the Rev. Dr. Marshall, Trustee, Fred Peter, correspondent, W. Coxier.

REPORTING RECORD.
OD WILL GO FOR STEWARDS.*Tends to Demand a Fair Hearing.**Aspects to Ride Again in England.**Princess of Wales May Witness Cup Races—McCoy to Wed Carter's ex-Sweetheart.*

By THE NEW ASSOCIATED PRESS—P.M.J.
NEW YORK, Dec. 7.—James Tod Sloan, 21, a reporter for the Associated Press, was interviewed today concerning the decision of the English Jockey Club in his case. He refused to discuss the Sloan decision.

The stewards of the English Jockey Club are undeniably fair. That they would exonerate me I knew in advance. They have nothing to do with it. I have heard a lot of talk about Mr. Croker bringing suit against the Jockey Club on account of these charges, and also that I should be compelled to pay a fine. I cannot speak for Mr. Croker, of course, although I doubt that he intends to do anything of the kind, but for myself I can say that I have no thought of suing and cannot see exactly on what ground I could do it.

Weather Conditions.—The pressure is falling slowly from the Pacific Slope to the Rockies. It is now very high along the plateau and mountain slopes, accompanied by fair, cold weather. Fair, warm weather continues in Southern California, with dry, north winds. The temperature this morning at Los Angeles was 29 per cent. No rain is reported from the Pacific Slope stations.

Forecasts.—Local forecast for Los Angeles and vicinity: Continued fair weather tonight and Sunday, with winds mostly northerly.

SAN FRANCISCO—Local forecast for conditions and general forecast. San Francisco date: Maximum temperature, 52 deg.; minimum, 42 deg.

The pressure has fallen slowly over the Pacific Slope. There are no signs yet of a marked disturbance from the Pacific, but conditions are a step better. Weather is moving very rapidly. In the great valleys of California the temperatures continue low, owing to the tule fog. South of the Sierras abnormally warm winter prevails. No rain has fallen west of the Rockies.

Forecast made at San Francisco for thirty stations at midnight yesterday:

For Northern California: Fair Saturday; rule in the valleys; light northerly winds, changing to southerly.

San Francisco and vicinity: Fair Saturday, becoming cloudy; light northerly winds, changing to southerly.

Sacramento and vicinity: Foggy Saturday morning; clearing during the day; light south winds.

WEDAY THREW UP THE SPONGE.

Tremble Scored a Dead Easy Victory.

Tame Sport at Athletic Club Last Night.

Desperate Air-fanning But No Effective Blows—Baseball and Cycling Notes.

The public morals were again degraded a few notches last night by one of those shocking exhibitions of brutality you read about. Tremble outdistanced Weday in eleven rounds of desperate air-fanning before the Athletic Club.

Candidly, the only thing shocking about a modern prize fight is the ribious array of waistcoats on the ringside. An up-to-date prize fight is a bore. An old lady with a shingle and a lesson in ethics to teach can raise more excitement in the family circle. A meeting of two Thomas cats on the back fence is really something ferocious. But a prize fight is not even impolite. Men say in reckless whispers, "Going round to the worms

SATURDAY, DECEMBER

THE CITY IN BRIEF.

AT THE THEATERS.

LOS ANGELES.—The Fencing Master. BURRANK—A Stranger in New York. CHAPPELLE—Vanderbilt.

NEWS AND BUSINESS.

Revival Continues.

The revival meetings which have been in progress at the Epworth Methodist Episcopal Church on Bellevue avenue for the last two weeks, under the leadership of Rev. J. C. Miller, will continue for another week.

Deacons' Meeting.

Mr. O. P. Purse has donated to the Chamber of Commerce the decorations used in her booth at the bazaar held at St. John's Episcopal Church. They have been placed in the club room and will form part of the permanent decorations.

Will Accept of Course.

The Chamber of Commerce is in receipt of an invitation asking it to participate in the coming Tournament of Roses at Pasadena January 1. The invitation will be accepted, of course, and the chamber will be represented in the parade by at least one, and probably several, trolley cars.

Publishers' Meeting.

Representatives of the five daily papers of Los Angeles met yesterday afternoon at 4 o'clock for the purpose of taking the necessary preliminary steps in the work of forming a permanent local organization of the publishers of the Los Angeles daily papers. Officers were elected and it was decided to meet again in two weeks.

Took a Tumble.

Mariano Velasquez, a Mexican lad, was trying to ride a bicycle on New High street last night about 10 o'clock, when he fell off and dislocated his left shoulder. He was taken to the Receiving Hospital, where his injury was repaired; after which he was sent to his home at No 666 New High street.

County-line Bridge.

Supervisors Davis, Wirsching, Field and Hanley visited the county line near Coyote Creek yesterday, and had a conference with Supervisor Potter of Orange county regarding the replacement of the bridge at Sweet Crossing. The old bridge was carried several miles. A new one, 140 feet long, is to be built at a cost of \$600 or \$800.

New Gospel Quartet.

The Pacific Gospel Union, No. 323 East Second street, will not have its new quarters ready for occupancy for several months. Last improvements for interests at the new location Reading, audience, amusement and work rooms will be arranged, and a coffee saloon added. On Monday, the 17th inst., the members of the Ministerial Union will have lunch there.

A Hail.

The Sisters of Charity of the Los Angeles General Hospital, 10th and Hill, remind the friends of the orphan under their care that the Christmas holidays are fast approaching, and the dear children are looking forward with pleasure to pretty things for the Christmas tree and good things for Christmas dinner. Donations of candies, dolls, fruit, etc., will be most gratefully received by the sisters.

Ionian Society.

At a meeting of the Ionia Society, held in the High School auditorium yesterday afternoon, an entertaining program was carried out. Several sketches were given by Arthur Skinner, Bessie Stetzer, Lucy Harper and George Beach, the former having William McKinley for his subject. Fred Purcell rendered a vocal solo, Roy Graybill read an original poem, and J. H. Francis closed with an original speech.

Excursion Abandoned.

There will be no Chamber of Commerce excursion from this city to Phoenix on the occasion of the annual meeting of the chamber of commerce of the week. The committee of the Chamber of Commerce which had the matter in charge has abandoned the idea, owing to the inability to secure a crowd. Quite a number of excursions are planned, however, for the week, so that this city will not be without representation there. A party of six will leave on Monday to remain throughout the week.
